## **Mesa State's MBA program celebrates tenth anniversary**

Grand Junction – The Mesa State College Master's in Business Administration program invites the community to help celebrate its tenth anniversary. The day will begin with research presentations by graduating MBA students and conclude with a reception that evening.

The eleven research presentations include factors affecting real estate values in Mesa County, financial viability of club sports at Mesa State College, and a study of women small business owners in the Grand Valley. They will be presented from 9 am to 3 pm on Saturday, May 9, in the new classroom building at the southeast corner of Houston and Elm avenues.

The reception will be held from 4 pm to 6 pm on Saturday. Those interested in attending the reception are asked to RSVP by May 6 to 248-1778.

“We are very pleased to celebrate ten years of MBA graduates,” said Dr. Morgan Bridge. “An MBA program is designed for people who need business knowledge as they run or manage a business and I believe Mesa State offers one of the most cost-effective MBA programs in the country taught by full-time faculty with a wide variety of business backgrounds. With this graduating class, we have over 124 MBA graduates in leadership positions around the world.

MBA students learn practical skills in management, marketing, finance, and accounting to help deal with the special challenges that face our global economy.
